

37' Ceiba S-Rig with 2 - 22' Side Tubes

Front Nose Board, duffle frame & motor frame are all made out of aluminum diamond plate

All custom boxes on the boat are aluminum

Nose Board

Each side on the duffle frame rail can hold 20 mm cans or aluminum boxes or be set up with fixed pads for seating

Side tubes are rigged with small nylon cord for people to hold onto for "tube riding"

4 - 205 qt galaxy coolers fill up the bottom of the duffle frame

All personal bags & duffel are packed on top of the coolers & covered by an industrial tarp for day time travel. Once lashed down you can easily lash or clip on your day time gear

Below deck on the motor frame is for storing propane, poop boxes, soda pop & beer

3 Aluminum tables are rigged here for easy convenience

3 Drag Bags are supplied with the rig & are used for cooling your soda pop & beer

30 HP Spare Honda Motor mounted securely to top of gas tank

3 Bimini mounts along each side

50 cal personal boxes strap down here easily

Generator box with seat & blower

Personal motor well box with seat

Jackass transom or straight transoms & are on Ceiba's 37' ers

30 HP Honda 4 Stroke as the runner motor with safety strap
