

Subject: Glen Canyon Notification - July 2026

Date: Monday, June 29, 2026 at 1:22:54 PM Mountain Standard Time

From: Becker, Amanda H <abecker@usbr.gov>

To: Becker, Amanda H <abecker@usbr.gov>

Greetings,

This notification confirms that the release volume from Glen Canyon Dam for July 2026 will be 482,000 acre-feet. Hourly and daily average releases from Glen Canyon Dam for July 2026 will be scheduled through the Western Area Power Administration to be consistent with the Glen Canyon Dam, Record of Decision (dated December 2016) and to also achieve, as nearly as is practicable, this monthly volume.

Hourly releases during July 2026 will fluctuate from a low of approximately 6,000 cfs to a high of approximately 9,200 cfs during weekdays and weekends.

The anticipated monthly release volume for August 2026 is 482,000 acre-ft and will be confirmed with a subsequent notification toward the end of July.

This notification supersedes all previously issued ones and is current until a new one is issued. All times identified in this notification are local time (Mountain Standard Time) and not hour ending.

Thanks,

Amanda
