

# TOUCANET COFFEE

## Proudly Supports Women Coffee Farmers & Owners

A percentage of all coffee sales goes back into the non-profit foundation to support the education and employment of women.

Here are a few of the women that help produce this coffee. These owners focus on employing other women and giving them equal pay and many other opportunities.

### HOW THIS FOUNDATION WORKS:

Created in 2004 by women coffee farmers in Peru in partnership with Organic Products Trading Company, Café Femenino has spread across the globe to give women coffee farmers the credit they deserve and the voice they need to build an equal future for themselves, their families, and their communities.

Café Femenino brand coffee is developed, administered and imported exclusively by OPTCO and is distributed to more than 250 roasters across the US, Canada, Australia, UK, and Europe. Café Femenino is high-quality, Fair Trade, organic coffee that is left unblended to preserve the acidity, body, flavor and aroma that are unique to each Café Femenino coffee variety.
