Greetings,

This notification confirms that the release volume from Glen Canyon Dam for April 2026 will be 490,000 acre-feet. Hourly and daily average releases from Glen Canyon Dam for April 2026 will be scheduled through the Western Area Power Administration to be consistent with the Glen Canyon Dam, Record of Decision (dated December 2016) and to also achieve, as nearly as is practicable, this monthly volume.

Hourly releases during April 2026 will fluctuate from a low of approximately 7,946 cfs to a high of approximately 8,427 cfs during weekdays and weekends.

This notification supersedes all previously issued ones and is current until a new one is issued. All times identified in this notification are local time (Mountain Standard Time) and not hour ending.

Thanks,

Alex
