

**Ceiba Adventures**  
**Fuel Surcharge Effective Immediately**  
**March 11, 2022**

Since 2008, our price for Ceiba shuttles has been based on a fuel cost of \$4.00 per gallon in Northern Arizona. With the cost of diesel now over \$5.00 per gallon and gasoline at approximately \$4.50 per gallon we are in the unfortunate situation of having to implement a fuel surcharge on all Ceiba shuttles starting immediately. See chart below.

Like all of you, we truly hope this is a temporary situation. This fuel surcharge will remain in effect until prices normalize again around the \$4/gallon price.
